

To test font-weight resolution in @font-face, the divs below have all been assigned the same font-family, but with a different weight. In the font-face declarations, the weights will point to different font files

1. Droid Serif Regular

**2. Droid Serif Bold**

3. Droid Serif 400pt

**4. Droid Serif 700pt**

5. Droid Serif 300pt

6. Droid Serif 500pt

**7. Droid Serif 800pt**
